

Supplementary Examination Summer 2024

Course: B. Tech.

Branch: [Common To All Branches]

Semester : I

Subject Code & Name: Computer Programming in C [BTES104]

Max Marks: 60

Date: 06/07/2024

Duration: 3 Hr.

Instructions to the Students:

- 1 All the questions are compulsory.
- 2 The level of question/expected answer as per OBE or the Course Outcome (CO) on which the question is based is mentioned in () in front of the question.
- 3 Use of non-programmable scientific calculators is allowed.
- 4 Assume suitable data wherever necessary and mention it clearly.

	(Level/CO)	Marks
Q. 1 Solve Any Two of the following.		12
A) Draw the flowchart and write algorithm to calculate area of circle.	CO1	6
B) What is IDE? Explain with suitable example.	CO1	6
C) What are the differences between high level and low level language?	CO1	6
Q.2 Solve Any Two of the following.		12
A) What is the precedence and associativity of operators?	CO2	6
B) What are different data types in c. Explain with suitable example and diagram.	CO2	6
C) Write a program to calculate the area and perimeter of a rectangle.	CO2	6
Q. 3 Solve Any Two of the following.		12
A) Write a program to calculate sum and square of randomly entered n numbers using for loop.	CO3	6
B) Write a program to check maximum between three numbers.	CO3	6
C) Write a difference between while and do while loop.	CO3	6
Q.4 Solve Any Two of the following.		12
A) Write a program to calculate area of circle using function.	CO4	6
B) What is recursive function? Explain with example.	CO4	6
C) Write a program to demonstrate any 3 string function using c program.	CO4	6
Q. 5 Solve Any Two of the following.		12
A) Write a program to print addition and subtraction of two matrices by taking input from the user.	CO5	6
B) What is difference between array and Structure? Explain with suitable example and syntax.	CO5	6
C) Write a program in C to create a structure having information about books (book id, name, author, and publisher). Read the data of 6 books from the user and display the data entered by the user on the screen.	CO6	6

*** End ***
