

DRBABASAHEB AMBEDKAR TECHNOLOGICAL UNIVERSITY, LONERE, RAIGAD
Supplementary Winter 2024

Branch Name: Common to All Branches

Class: FY

Sem.: II

Subject Name: Engineering Graphics

Subject Code: BTES203G

Max Marks: 60

Duration: 04Hrs

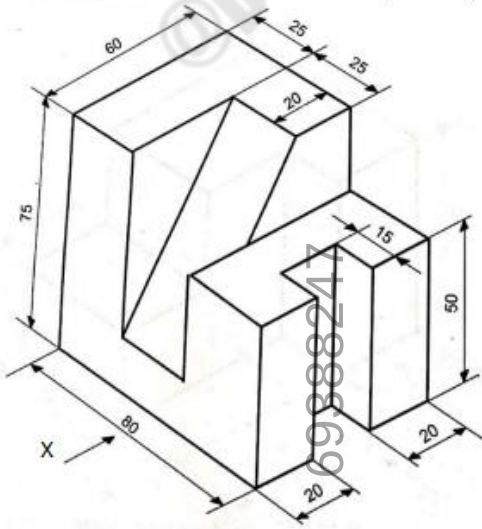

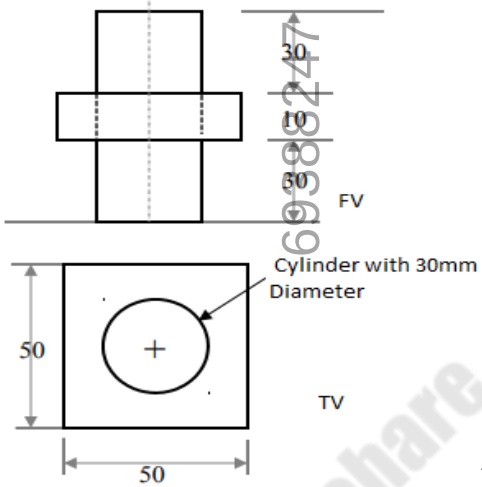

Date: 23/12/2024

Course: B.Tech

Instructions:-

1. **Question No. 1** is compulsory and include objective-type questions.
2. Attempt **Any FOUR** questions out of Q.No 02 to Q. No 6.
3. Assume the suitable data wherever necessary.
4. Mention the Question numbers correctly on the drawing sheets.

Q.1	Objective type questions. (Compulsory Question)	Level	Marks
1	Point 'P' has both Front view & Top view above XY line, Point 'P' is located in a) 3 rd Quadrant b) 4 th Quadrant c) 2 nd Quadrant d) 1 st Quadrant	CO2	1
2	Horizontal Line shows Point View in..... a) Front View b) Top view c) Side View d) May be Front or Side view	CO2	1
3	True length of Frontal Line is observed in..... a) Front View b) Top view c) Side View d) May be Front or Side view	CO2	1
4	The included angle of Regular Pentagonal plane is a) 118° b) 801° c) 108° d) 120°	CO1	1
5	The view of plane parallel to Profile plane is a) Edge view in FV b) True shape in Side view c) Edge view in TV d) All above	CO2	1
6	The plane with 04 equal sides is a) Heptagon b) Rhombus c) Trapezium d) Scalene	CO1	1
7	The pyramids are havingshape for its slant faces. a) Triangular b) Square c) Rectangular d) circular	CO3	1
8	Cylinder lying on generator on ground shows..... shape in Top View. a) Ellipse b) Square c) Rectangular d) circular	CO3	1
9	The RHSV according to First Angle Method of projection is.... a) Right side of FV b) Right side of TV c) Left side of FV d) Left side of TV	CO4	1
10	The Third Angle method of projects shows its..... a) Plan below XY b) Plan above XY c) Elevation below XY d) Both (b) & (c)	CO4	1
11	The "Isometric View" means drawing the..... a) 2D sketch with True Scale b) 3D sketch with True Scale c) 2D sketch with Isometric Scale d) 3D sketch with Isometric Scale	CO4	1
12	The line used for transferring the center of hole from one to other view is ... a) Section line b) Dotted line c) center line d) Thin line	CO1	1
Q.2	Attempt the following questions		
a.	Draw the Regular Hexagon of 50mm side by any method.	CO-1	05
b.	Using Drawing Standards, DRAW the following statement: Drawing is a Language of Engineers	CO-1	04
c.	What are the different types of Lines used in Engineering Drawing.	CO2	03

Q.3	Draw the Front view in X- direction, Top view and Side view of the following sketch by First angle Method of Projection (Fig.2)  Fig:2 All dimensions are in mm	CO4	12
Q.4	Attempt the following questions		
a.	Profile line AB 75mm long is inclined to HP by 40° . Point A is 20mm above HP and 15mm in front of VP. Complete the projections and find its Plan Length and Elevation Length.	CO2	04
b.	A regular Hexagon of 45mm side is resting in HP on one of its edges with surface inclined to HP by 45° . Complete the projections.	CO2	08
OR			
c.	A Square Plate of 40 x 40 mm sides resting on corner in VP and inclined to VP by 45° . Complete the projections.	CO2	08
Q.5	Attempt the following question (Any One)		
a.	A Triangular Prism of base side 50 mm and height of Axis 75 mm is resting on corner in HP with the axis inclined to HP by 45° and to VP by 30° . Complete the projections if Top face is towards the observer.	CO3	12
b.	A Pentagonal Pyramid of base side 50mm and height of axis 75 mm, is resting on base in HP with one of the base edges parallel to VP and towards the observer. It is cut by an AIP 40° which cuts the axis at point 25mm from the apex. Draw the FV, TV and True shape of the section.		
Q.6	Draw the Isometric View of the following object (Fig-3).		
	 Fig-3	CO4	12
