

DR. BABASAHEB AMBEDKAR TECHNOLOGICAL UNIVERSITY, LONERE

B.Tech (Electronics and Telecommunication Engineering) SEMESTER - 6 Summer 2025 (Regular)

Course :Bachelor of Technology (Electronics and Telecommunication Engineering) Branch : Engineering and Technology

Semester : SEMESTER - 6

Subject Code & Name: BTETOE604C - COMPUTER NETWORK

Time : 3 Hours]

[Total Marks : 60

Instructions to the Students:

1. Each question carries 12 marks.
 2. Question No. 1 will be compulsory and include objective-type questions.
 3. Candidates are required to attempt any four questions from Question No. 2 to Question No.6
 4. Use of non-programmable scientific calculators is allowed.
 5. Assume suitable data wherever necessary and mention it clearly.
-

Q1. Objective type questions. (Compulsory Question)

12

1 Which OSI layer is responsible for bit-by-bit data transmission?

- A) Data Link Layer
- B) Network Layer
- C) Transport Layer
- D) Physical Layer

2 Which transmission medium uses light to transmit data?

- A) Coaxial cable
- B) Microwave
- C) Optical fiber
- D) Twisted pair

3 The TCP/IP model has how many layers?

- A) 5
- B) 4
- C) 6
- D) 7

4 In packet switching, data is sent in:

- A) A continuous stream
- B) Circuits
- C) Fixed-sized cells
- D) Small packets independently

5 Which protocol is used in point-to-point data link connections?

- A) Ethernet
- B) PPP
- C) IP
- D) ARP

6 The main function of the Data Link Layer is:

- A) Addressing
- B) Routing
- C) Error detection and flow control
- D) Encryption

- 7 **Which access method is used in traditional Ethernet?**
 A) Token passing
 B) Polling
 C) CSMA/CD
 D) CSMA/CA
- 8 **Which Ethernet standard operates at 100 Mbps?**
 A) Standard Ethernet
 B) Gigabit Ethernet
 C) 10 Gigabit Ethernet
 D) Fast Ethernet
- 9 **Which of the following uses a 128-bit address format?**
 A) IPv4
 B) IPv6
 C) ARP
 D) ICMP
- 10 **Which protocol offers connectionless communication?**
 A) TCP
 B) UDP
 C) FTP
 D) SCTP
- 11 **TCP provides:**
 A) Unreliable, unordered delivery
 B) Reliable, ordered delivery
 C) Broadcasting service
 D) None of the above
- Which application-layer protocol is used for email delivery?**
 A) FTP
 B) HTTP
 C) SMTP
 D) SNMP

Q2. Solve the following.

- A) Compare the OSI model with the TCP/IP protocol suite, highlighting key differences. 6
- B) Explain various types of guided transmission media with their advantages and disadvantages. 6

Q3. Solve the following.

- A) Differentiate between LAN, MAN, and WAN with suitable examples. 6
- B) Compare various Random Access protocols based on their method, collision handling, and efficiency? 6

Q4. Solve Any Two of the following.

- A) Explain the structure and types of frames used in HDLC? 6
- B) Compare IPv4 and IPv6 in terms of addressing, header format, and features? 6
- C) What is Bluetooth? Explain its Architecture? 6

Q5. Solve Any Two of the following.

- A) **Differentiate between TCP, UDP, and SCTP in terms of connection type, reliability, and application areas.**
- B) Write short notes on 6
1. FTP
 2. HTTP

- C) What is congestion control in networks? Explain Leaky Bucket and Token Bucket algorithms with diagrams. 6

Q6. Solve Any Two of the following.

- A) What is a firewall? Discuss different types of firewalls and their roles in network security? 6
- B) What is SNMP? Explain its architecture and how it is used for network management? 6
- C) Explain the OSI reference model in detail. Describe the function of each layer with a suitable example? 6

*** End ***
