Q. 6	Solve Any Two of the following.		12
A)	Paraphrase the following paragraph Original Paragraph: The integration of technology into education has revolutionized the learning experience, making it more interactive, personalized, and accessible. With the advent of online platforms, students now have the flexibility to learn from anywhere, at their own pace, breaking down geographical barriers and providing	(L3)	6

	opportunities for those in remote areas. Digital tools such as virtual classrooms, video lectures, and interactive simulations have enhanced student engagement, fostering a more immersive learning environment. Moreover, educational apps and resources allow for customized learning experiences, addressing the diverse needs and learning styles of students. However, while the advantages of technology are apparent, challenges remain. The digital divide, where some students lack access to necessary devices or stable internet connections, highlights disparities in educational opportunities. Additionally, the shift to digital education demands new teaching strategies, as traditional methods may not be as effective in a virtual setting. Teachers must adapt to new tools and platforms, requiring ongoing professional development to ensure effective instruction. Despite these challenges, the continued evolution of technology holds immense potential to improve education globally.		
B)	Explain in detail different types of interviews.	(L2)	6
C)	What are the Rules for Panel discussion?	(L3)	6
