

DR. BABASAHEB AMBEDKAR TECHNOLOGICAL UNIVERSITY, LONERE

Bachelor of Pharmacy SEMESTER - 1 Winter Addi. 2025 (Regular)

Course :Bachelor of Pharmacy Branch : Pharmacy

Semester : SEMESTER - 1

Subject Code & Name: BP103T - PHARMACEUTICS I

Time : 3 Hours]

[Total Marks : 75

Instructions to the Students:

- 1.All questions are compulsory.
- 2.Draw diagrams / figures wherever necessary
- 3.Figures to right indicate full marks

Q.1 Objective Type Questions (Answer all the questions) (10 x 2) = 20

- | | |
|---|---|
| A) Define Gargles & Thorat paint. | 2 |
| B) What is suspending agent? Give example. | 2 |
| C) Define gel & cream. | 2 |
| D) Define efflorescent and hygroscopic powders. | 2 |
| E) Define suppository and enlist its types. | 2 |
| F) Write any two milestones in the history of pharmacy in India. | 2 |
| G) Classify semisolid dosage forms. | 2 |
| H) How elixir differs from syrups? | 2 |
| I) Enlist the steps in prescription handling. | 2 |
| J) Differentiate between flocculated and deflocculated suspension | 2 |

Q.2 Long Answers (Answer 2 out of 3) (2 x 10) = 20

- | | |
|---|----|
| A) Define emulsion. Classify emulsions and explain emulsion detection tests. | 10 |
| B) What are pharmaceutical incompatibilities? Discuss their types with suitable examples and methods to overcome them. | 10 |
| C) Explain the mechanism of dermal drug absorption and discuss in detail the various factors affecting dermal penetration of drugs. | 10 |

Q.3 Short Answers (Answer 7 out of 9) (7 x 5) = 35

- | | |
|--|---|
| A) What are the factors affecting posology? | 5 |
| B) Define prescription and explain the parts of a prescription with suitable examples. | 5 |
| C) Write a note on pharmacy as a career. | 5 |
| D) Discuss various suppository bases and add a short note on additives used in suppository formulation. | 5 |
| E) Describe the evaluation tests of semisolid dosage forms. | 5 |
| F) Write short note on Indian Pharmacopoeia | 5 |
| G) Explain eutectic mixtures in powders and methods to overcome liquefaction. | 5 |
| H) Discuss the stability problems of suspensions and methods to overcome them. | 5 |
| I) Enlist various solubility enhancement techniques. Explain any one method in detail with suitable example. | 5 |
