

**DR. BABASAHEB AMBEDKAR TECHNOLOGICAL UNIVERSITY, LONERE –
RAIGAD -402 103**

Summer End Semester (Regular) Examination –May- 2018

Branch: B.Pharm

Subject: Environmental science (BP206T)

Date: - 01/06/2018

Sem.:- II

Marks: 50

Time:- 2:00 Hr.

Timing: 10am. – 12:00

Q.1 Answer any two.

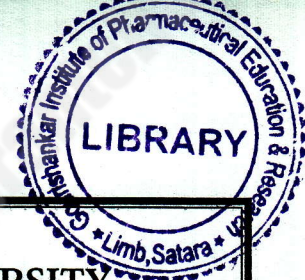

(2 X 10 = 20 Marks)

- 1) Explain the structure and function of aquatic ecosystem.
- 2) Give sources, effects and control of air pollution.
- 3) Discuss role of individual in conservation of natural resources.

Q. 2. Answer any six

(6 X 05 = 30 Marks)

1. Give methods of solid waste management.
2. Discuss environmental effects of overuse of fertilizer and pesticides.
3. Write short note on Watershed management.
4. Write short note on Threat to biodiversity.
5. Give causes and effects of global warming.
6. Write short note on Dam, benefit and problem.
7. Write short note on Desertification.
8. Bio-geographical Classification of India.

END SEMESTER EXAMINATION -2022

Branch- B. Pharm.

Year: - F.Y. B. Pharm.

Subject:- BP206T Environmental Sciences

Sem:- II

Date:-13.09.2022

Marks:- 50

Duration:- 2.00 Hours

Timing :- 10.00 am to 12.00

Que. 1 Attempt any Two of the following

(2 x 10=20 Marks)

- A) List the functions of producers, consumers and decomposers in an ecosystem with examples.
- B) What is mean by Natural Resources? Explain Renewable and Non-renewable Natural resources.
- C) Explain the types of pollution. Write the precautions to minimize the air pollution.

Que. 2 Attempt any Six of the following

(6 x 5=30 Marks)

- a) Explain the need of public awareness in environment.
- b) Explain details about Mineral resources.
- c) Explain the uses of forest.
- d) Discuss the structure of desert ecosystem.
- e) Explain the functions of grassland ecosystem.
- f) Draw an energy flow in the ecosystem.
- g) Briefly explain ecosystem and environment.
- h) What are the causes of marine pollution.

**GOURISHANKAR INSTITUTE OF PHARMACEUTICAL EDUCATION &
RESEARCH, LIMB**

End Semester Examination 2022-23

Class-First year B. Pharmacy

Sem- II

Subject-Environmental Sciences (BP206T)

Time- 1:00 to 3:00 pm

Day and Date: 15/5/23Monday

Marks: 50

Q. 1 Attempt any Two of the following

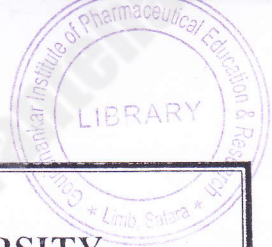

(2 x 10=20 Marks)

- a. Explain the need for public awareness on environment conservation."
- b. What is mean by Natural Resources? Explain Renewable Natural resources.
- c. Explain the types of pollution. Explain the air pollution.

Q. 2 Attempt any Six of the following

(6 x 5=30 Marks)

- a) Write a note on earth environment.
- b) Discuss the scope of environment.
- c) Write a note on the need of public awareness about environment.
- d) Discuss the use and over-utilization of forest resources.
- e) Explain the functions of grassland ecosystem.
- f) Draw an energy flow in the ecosystem.
- g) What are the threats to marine ecosystems?
- h) Write the precautions to minimize the water pollution..

ENDSEMESTER EXAMINATION -2023

Branch- B. Pharm.

Year: - F.Y. B. Pharm.

Subject: -BP206T Environmental Sciences

Sem:- II

Date:-05.09.2023

Marks:-50

Duration:-2.00 Hours

Timing :- 10.00am to 12.00

Que.1 Attempt any Two of the following

(2 x 10=20 Marks)

- a) What is environment? Explain the nature of environmental science.
- b) What is mean by Natural Resources? Explain the forest resources and their overutilization.
- c) Give in details about water pollution.

Que.2 Attempt any Six of the following

(6 x 5=30 Marks)

- a) Explain the importance of public awareness in environmental science.
 - b) Explain details about food resources.
 - c) Explain the uses of water.
 - d) Discuss the structure of desert ecosystem with suitable example.
 - e) Explain the functions of marine ecosystem.
 - f) Explain the types of natural resources with suitable example.
 - g) Briefly explain environmental effects of air pollution.
 - h) Suggest measures to control the soil pollution.

END SEMESTER EXAMINATION JUNE – 2024**

Branch- B. Pharm.

Subject: - BP206T Environmental Sciences

Date:-26.06.2024

Duration:- 2.00 Hours

Year: - F.Y. B. Pharm.

Sem:- II

Marks:- 50

Timing :- 2.00 pm to 4.00pm

Que. 1 Attempt any Two of the following

(2 x 10=20 Marks)

- i. Explain the role of an individual in the conservation of natural resources. Provide examples of how everyday actions can contribute to the preservation of natural resources.
- ii. Discuss the characteristic structure and functions of a forest ecosystem. How does deforestation impact the balance of a forest ecosystem?
- iii. Evaluate the effects of air pollution on human health and the environment. Suggest measures that can be implemented to reduce air pollution in urban areas.

Que. 2 Attempt any Six of the following

(6 x 5=30 Marks)

- i. Describe the structure and function of a desert ecosystem.
 - ii. Discuss the types and characteristic features of aquatic ecosystems.
 - iii. Differentiate between renewable and non-renewable resources, providing examples for each.
 - iv. Explain the multidisciplinary nature of the environmental science.
 - v. Analyze the effects of soil pollution on agriculture and ecosystems.
 - vi. Elaborate on the concept of natural resources and associated problems, highlighting issues related to water resources.
 - vii. Discuss the ethical implications of human interventions in ecosystems and propose transformative approaches for sustainable coexistence with the environment.
 - viii. Suggest a structured plan for controlling water pollution in a local water body, outlining steps from identification to remediation.
-
