

DR. BABASAHEB AMBEDKAR TECHNOLOGICAL UNIVERSITY, LONERE

Master of Pharmacy (Pharmacology) SEMESTER - 2 Winter 2025 (Supply.)

Course :Master of Pharmacy (Pharmacology) Branch : Pharmacy

Semester : SEMESTER - 2

Subject Code & Name: MPL201T - ADVANCED PHARMACOLOGY II

Time : 3 Hours]

[Total Marks : 75

Instructions to the Students:

- 1.All questions are compulsory.
- 2.Draw diagrams / figures wherever necessary
- 3.Figures to right indicate full marks

Q.1 Attempt any FIVE questions of the following (5 x 2) = 10

- | | |
|--|---|
| A) Write the therapeutic uses of growth hormone | 2 |
| B) Write the MOA and therapeutic uses of aminoglycosides | 2 |
| C) Give two examples each of immunosuppressants and immunostimulants | 2 |
| D) Classify antiemetic drugs with suitable examples | 2 |
| E) Classify the antioxidants based on types with suitable examples | 2 |
| F) Define the term “chronopharmacology” | 2 |
| G) State the role of free radicals in neurodegenerative diseases | 2 |

Q.2 Attempt any FOUR questions of the following (5 x 4) = 20

- | | |
|--|---|
| A) Classify the oral contraceptives. Explain the mode of action and therapeutic uses of oral contraceptives | 4 |
| B) Explain the mechanisms of antibiotic resistance | 4 |
| C) Write in detail pharmacotherapy of bronchial asthma | 4 |
| D) Explain the application of chronotherapy in the management of cardiovascular diseases | 4 |
| E) Define free radicals and antioxidants. Explain the role of free radicals in the etiopathology of diabetes | 4 |
| F) Define and classify anti-tubercular drugs. Explain the pharmacology of isoniazid | 4 |

Q.3 Attempt any THREE questions of the following (15 x 3) = 45

- | | |
|--|----|
| A) Define peptic ulcer. Write the classification of antiulcer drugs with suitable examples. Explain the pharmacology of proton-pump inhibitors | 15 |
| B) Define and classify oral hypoglycaemic agents. Write the pharmacology of sulphonylureas | 15 |
| C) Classify antibiotics. Briefly explain the mechanism of action, antimicrobial spectrum, antimicrobial resistance, and therapeutic uses of Cephalosporins | 15 |
| D) Define and classify anticancer agents with suitable examples. Discuss the pharmacology of alkylating agents in detail | 15 |
| E) Classify antiparkinson’s agents with suitable examples. Explain the recent advances in Parkinson's disease | 15 |
