

**Branch: M. Pharm.**

**Subject: Pharmacological and Toxicological Screening**

**Methods-II**

**Marks: 75**

**Semester: II**

**Subject Code: MPL202T**

**Date: 11/09/2023**

**Time: 3hrs**

**Instructions:** i) All questions are compulsory  
ii) Figures to the right indicate full marks  
iii) Draw the diagrams or flow charts wherever necessary.

**Q. No.1 Attempt any FIVE questions of the following:**

**(2\*5=10 Marks)**

- A. Define toxicology.
- B. What are the advantages and disadvantages of the 'nose-only exposure' method of inhalation toxicity study?
- C. Enlist different groups used in chronic oral toxicity study.
- D. What are the routes of exposure to toxicants?
- E. Define LD50 and ED50.
- F. Enlist IND application content.
- G. Symptomatic parameters of dermal toxicity studies as per OECD guidelines.

**Q. No.2 Attempt any FOUR questions of the following:**

**(5\*4 = 20 Marks)**

- A. Write a note on acute toxicity studies.
- B. Describe schedule Y in detail.
- C. Discuss alternative methods to animal toxicity testing
- D. Explain the Ames test.
- E. Write the procedure of the dermal irritation study
- F. Write a short note on the characterization of the test item.

**Q. No.3 Attempt any THREE questions of the following:**

**(15\*3 = 45 Marks)**

- A. Write down the female reproductive toxicology segment I and segment III studies.
- B. Discuss the concept of good laboratory practices and its importance in new drug development
- C. What is toxicokinetic? Explain in brief the toxicokinetic evaluation in preclinical studies.
- D. Discuss OECD 423 and OECD 425 in detail.
- E. Explain in detail about IND studies and enlist the IND submission parameters.
